## Day 1 - Santiago

Upon arrival to Santiago International Airport, you will be met by a local representative who will assist and transfer you to your hotel. Early Check-in has been guaranteed for your immediate use of it, and start feeling the local atmosphere and service, this way to be prepared for the afternoon activity. We recommend having lunch at the hotel (not included).

In the afternoon, you'll get to experience one of the most developed cities in South America. Santiago combines the urban and the classic, in both its architecture and atmosphere. This heritage comes to life through iconic city sights such as the Moneda Presidential Palace, designed by the Italian designer, Joaquin Toesca. From 1845 to 1930 the building actually served as a presidential residence. What were once grand living quarters are now the offices of Cabinet ministers. The Plaza de Armas is the city's most famous square, surrounded by important and beautiful buildings such as the Cathedral and Central Post Office. One of the most important parts of the city is San Cristobal Hill. The hill is recognised as one of the largest urban parks. This time, you will enjoy a fun ride on the historical Funicular (Cable Car) until the top of the hill to admire the city from a different perspective, and then your ride down will be enjoying the cable way that connects the top with the base and Providencia's district of Northern Pedro de Valdivia's neighbours. This tour shows you the different contrasts of the city, taking you on a trip through the Santiago of yesteryear to the modern metropolis it is today.

Early this evening, your vehicle will be waiting to transfer you to the chef's home, who will be waiting for you for a pleasant and entertaining activity and lull you with Chilean preparations. A welcome based on selected products will be the beginning, and then get down to work and together prepare some typical Chilean dishes in an entertaining conversation and view of Santiago.

## Day 2 - Santiago

After a delicious breakfast, enjoy a day of activities carefully prepared and selected for your knowledge and entertainment in the central region. You will have a vehicle and guide at disposal to discover some of the hidden

treasures for families in Santiago and nearby surroundings. The day will start with a biking in the upper area of Santiago, visiting the Bicentenario Park and surrounding areas of this exclusive district. Depending on the ages and interests, you will be offered a number of options to complement the journey. The guide (at your complete disposal) will help and assist to select (from previous day) to select the appropriate activity (also according to availability, day of the week, etc). Some of the options are:

#### Museo Interactivo Mirador (MIM)

Located in southern area of Santiago in about 20 minutes from W Santiago Hotel, the MIM covers more than 12 hectares in a complex with more than 350 interactive modules, installed in 14 rooms, including the Universe Tunnel Building, as well as outdoor spaces, where children can discover different phenomena and scientific principles.

#### Parque Aventura

The best outdoor experiences park in Santiago. Short distance from Hotels located in Providencia and Las Condes districts as it is located on the San Cristobal hill slopes.

Adventurers of different ages will be able to test their skills by launching canopies, climbing walls, bridges of challenge, among other outdoor activities.

#### Buin Zoo

Located at only 45 minutes from

Santiago, Buin Zoo is the largest and most modern zoo in Chile, which is part of the Latin American Association of Zoological Parks and Aquariums (ALPZA). Located in an open environment of 12 hectares, it offers the opportunity to appreciate more than 2,000 specimens of 250 different species. Buin Zoo has achieved a great reputation on a continental level for its conservation initiative, high care of endangered species and improvement programs for optimal animal health. All the species found in Buin Zoo are organized within the park according to the geographical area to which they belong. This is how the American, Chilean, Asia-Oceania, European and African zones are known during the tour. It also has closed buildings dedicated to certain animals with special characteristics: birds, arthropods, herpets, farm animals and nocturnal animals.

After a day full of entertainments and discoveries, return to the hotel for a relaxing evening.

All yurts have a circular dome in the center of the tent which was originally used by Mongolian nomads as a chimney: you can enjoy sleeping under the stars of Patagonia all from the comfort and warmth of the yurt.
