2 Fly to Nyerere National Park

Fly to the Nyerere National Park (formerly the Selous Game Reserve).

On arrival, you will be met by the camp's driver guide and transferred to the property in time for lunch and a little afternoon siesta should you wish. Once the heat of the day passes, it is time to get out and explore this vast landscape.

Overnight: Silver: Siwandu | Gold: Roho ya Selous

Meal Plan: B,L,D

3 & 4 Nyerere National Park

You have the next two days to explore the Nyerere National Park. There are a wide range of activities available in the park.

One of the best ways to experience the waterways of the park is by boat. While floating beneath overhanging bushes bursting with birdlife, you may spot intricately woven weaver's nests and flashes of dazzling colours as birds dart in and out. Cast a line to try your luck at fishing, or simply sit back in the comfort of your chair and gaze through your binoculars at the many water birds that inhabit the lakes and rivers. Your trip ends on a sandbank where you can sit and enjoy a sundowner as the sun slips below the horizon.

Another way to experience the landscape is on a walking safari - it allows you to soak up the sounds, smells and colours of the bush in a way that a game drive does not. There is no roar of the engine to drown out the sound of the wind shaking the canopies overhead or the hoof thumps from a territorial male impala.

Overnight: Silver: Siwandu | Gold: Roho ya Selous

Meal Plan: B,L,D

5 Fly to Ruaha National Park

This morning, catch your flight to Ruaha National Park. On arrival you will be met by the driver guide and vehicle from the camp, and head out on a game drive before reaching the property in time for lunch.

In the afternoon, you have some time to relax before setting out to explore Ruaha on a game drive. The park is famed for having the largest herds of buffalo in Tanzania as well as some of the largest elephant herds. Ruaha is best visited in the dry season, from July through to October and from mid-December through to March, when the grass is short, and water is scarce making wildlife spotting that much easier. It also attracts some of Tanzania's top guides as it is one of the last true wildernesses in the country.

Overnight: Silver: Jongomero | Gold: Jabali Ridge

Meal Plan: B,L,D

6 Ruaha National Park

Explore the park on morning and afternoon game drives. You can also explore Ruaha on a walking safari which is a wonderful way to immerse yourself in the landscape and take notice of the smaller, but no less important creatures, in the eco system. On your walking safari, your guide will show you how to track animals, which plants have medicinal value, and which are harmful as well as a variety of other interesting and exciting bush facts.

Overnight: Silver: Jongomero | Gold: Jabali Ridge

8 & 9 Serengeti National Park

The Serengeti is not only famous for the great Wildebeest Migration but also for the vast number of species that reside in the park year-round. The concentration of predators in the Serengeti is high with large prides of lion, numerous hyena clans, and regular sightings of both cheetah and leopard. Elephant, buffalo, giraffe, and antelope can be found feeding on the rich plains as well as some of the lesser known and hard-to-spot species such as aardwolf, mongoose, caracal, servals, and hyrax.
